"I love these old streams- Neversink, Beaverkill, Willowemoc, etc.- and they have given much sport and pleasure to thousands of anglers." - Theodore Gordon 1907

November 16

Dear Gary,

Thank you for your wonderful presentation about fishing the Salmon River and some of its tributaries. A number of our members fish the area every year but you gave them insights into fishing there that they had never thought about before.

Fishing during the lunch hour was a great idea because like most anglers our TGF members take off for the nearest place to get something to eat and the river then opens up to picking where you want to fish.

Also, fishing the tributaries was a great idea. Most of our members go to the Salmon River all the time thinking that it is the only place they have to get a big fish but your slide show offered great alternatives.

I along with my fellow TGF anglers look forward to fishing there later this year and next spring.

Sincerely,

A handwritten signature in cursive script that reads 'Bert Darrow'.
